HTML — Expert
Tailwind CSS — Advanced
React — Advanced
Vue.js — Advanced
Spreadsheet — Advanced

💼 WORK

Front End Web Developer Intern
Simplevia Technologies Inc.
January 2025 - June 2025

🔧 TOOLS

📁 PROJECTS

Solar System Journey

Personal

Interactive solar system web app with space-themed visuals, descriptions about celestial bodies, and quizzes.

- Designed and developed an interactive web application showcasing the 8 planets of the solar system with immersive visuals, descriptions, and engaging quizzes for each planet to enhance user engagement.

Pokedex

Personal

Developed a functional pokedex clone that is based on the Gen 3 pokedex UI, containing pokemon from gen 1 to current

- Applied the Gen 3 pokedex UI design and fetched data from a public API to fill in the data of the pokemon.

Notable

Lyceum of the Philippines

A note-taking app that uses text-based commands to complete various functions

- Defined and prioritized key functionalities for implementation
- Developed and debugged program features, resolving technical issues independently

📸 CERTIFICATES

- Responsive Web Design
